

## EVENTS

Besides the financial support of carefully selected, sustainable development projects, it is a concern for the TwoWings Network to impart its experiences gained and knowledge acquired in the last twelve years in the field of development-cooperation especially to young people who would like to become active in this field.

Concerning this matter TwoWings can resort to a large network of members of the Board of Trustees, honorary members, members of the North South Advisory Board and friends and sponsors and imparts the acquired knowledge in form of lectures, workshops, seminars and case studies in regard to concrete projects.
